

- 1. Pipe Guard should fit snuggly over outside diameter of pipe. The PG is designed to be installed on standard schedule piping.
- 2. For best performance, pipe end and OD should be free from any burrs.
- 3. Position the Anchor ring close to the bottom of Pipe Guard for proper performance (as shown below).
- 4. It is not recommended that the PG be installed on plastic, PVC, or Vinyl piping.
- 5. The PG series cannot be installed onto piping designed to provide vacuum relief to a process.
- 6. A minimum relieving pressure of 5 psi is required to lift PG off of the piping.

## Serving America, Central & South America 16809 Park Circle Drive, Chagrin Falls, Ohio 44022 USA Toll Free: +1 800 543 1043 Phone: +1 440 543 1010 E-mail: sales@zookdisk.com
